

Arvinas to Present Clinical Data for ARV-102, a PROTAC LRRK2 Degradar, at the 2025 International Congress of Parkinson's Disease and Movement Disorders®

October 1, 2025

NEW HAVEN, Conn., Oct. 01, 2025 (GLOBE NEWSWIRE) -- Arvinas, Inc. (Nasdaq: ARVN), a clinical-stage biotechnology company creating a new class of drugs based on targeted protein degradation, today announced that two presentations, including one e-poster session and one oral platform presentation, featuring clinical data for ARV-102, an investigational oral PROTAC (PROteolysis TArgeting Chimera) degrader of leucine-rich repeat kinase 2 (LRRK2), will be presented at the 2025 International Congress of Parkinson's Disease and Movement Disorders® (MDS 2025) being held October 5–9, 2025, in Honolulu.

Presentation details are as follows:

Title: *First-in-Human Study to Assess the Safety, Pharmacokinetics, and Pharmacodynamics of Single and Multiple Ascending Doses of ARV-102, a PROTAC LRRK2 Degradar, in Healthy Participants*

- **Date & Time:** Oct. 7, 12:00–1:00 p.m. HST
- **Presentation Order:** 3
- **Poster Number:** 904

Title (Late Breaker): *First Clinical Trials of ARV-102, a PROTAC LRRK2 Degradar: Characterization of Pathway Engagement in Healthy Volunteers and Patients With Parkinson's Disease*

- **Date & Time:** Oct. 8, 12:00–1:00 p.m. HST
- **Presentation order:** 11
- **Poster Number:** Late Breaker Abstract 22

Additional information including abstracts can be found on the MDS 2025 [website](#).

About ARV-102

ARV-102 is an oral, brain-penetrant investigational PROTAC designed to degrade LRRK2, which is a large, multidomain scaffolding kinase. Increased activity, scaffolding, and expression of LRRK2 have been implicated in the pathogenesis of neurological diseases. LRRK2 mutations are a frequent familial cause of Parkinson's disease, and common LRRK2 variants have been linked with idiopathic Parkinson's disease and progressive supranuclear palsy.

About Arvinas

Arvinas (Nasdaq: ARVN) is a clinical-stage biotechnology company dedicated to improving the lives of patients suffering from debilitating and life-threatening diseases. Through its PROTAC protein degrader platform, Arvinas is pioneering the development of protein degradation therapies designed to harness the body's natural protein disposal system to selectively and efficiently degrade and remove disease-causing proteins. Arvinas is currently progressing multiple investigational drugs through clinical development programs, including vepdegestrant, targeting the estrogen receptor for patients with locally advanced or metastatic estrogen receptor–positive (ER+), human epidermal growth factor receptor 2–negative (HER2-) breast cancer; ARV-393, targeting B-cell lymphoma 6 protein (BCL6) for relapsed/refractory non-Hodgkin lymphoma; ARV-102, targeting LRRK2 for neurodegenerative disorders; and ARV-806, targeting Kirsten rat sarcoma (KRAS) G12D for cancers harboring this mutation, including pancreatic and colorectal cancer. Arvinas is headquartered in New Haven, Connecticut. For more information about Arvinas, visit www.arvinas.com and connect on [LinkedIn](#) and [X](#).

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve substantial risks and uncertainties, including statements regarding the potential of ARV-102, including its degradation of LRRK2. All statements, other than statements of historical fact, contained in this press release are forward-looking statements. The words "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "potential," "target," "goal," "potential," "whether," "will," "would," "could," "reliance," "should," "look forward," "seek," "continue," and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words.

Arvinas may not actually achieve the plans, intentions or expectations disclosed in these forward-looking statements, and you should not place undue reliance on such forward-looking statements. Actual results or events could differ materially from the plans, intentions and expectations disclosed in the forward-looking statements Arvinas makes as a result of various risks and

uncertainties, including but not limited to: whether Arvinas will be able to successfully conduct and complete development for its product candidates, including ARV-102, on its current timelines or at all; risks related to clinical trial results and the interpretation thereof, including with respect to ARV-102; Arvinas' ability to protect its intellectual property portfolio; Arvinas' reliance on third parties; whether Arvinas will be able to raise capital when needed; whether Arvinas' cash and cash equivalents will be sufficient to fund its foreseeable and unforeseeable operating expenses and capital expenditure requirements; and other important factors discussed in the "Risk Factors" section of Arvinas' Annual Report on Form 10-K for the year ended December 31, 2024 and subsequent other reports filed with the U.S. Securities and Exchange Commission. The forward-looking statements contained in this press release reflect Arvinas' current views with respect to future events, and Arvinas assumes no obligation to update any forward-looking statements, except as required by applicable law. These forward-looking statements should not be relied upon as representing Arvinas' views as of any date subsequent to the date of this release.
