

## Arvinas to Present at the 42nd Annual Goldman Sachs Global Healthcare Conference

June 3, 2021

NEW HAVEN, Conn., June 03, 2021 (GLOBE NEWSWIRE) -- Arvinas, Inc. (Nasdaq: ARVN), a clinical-stage biotechnology company creating a new class of drugs based on targeted protein degradation, today announced that Ron Peck, M.D., Chief Medical Officer, and Sean Cassidy, Chief Financial Officer, will participate in a fireside chat at the 42nd Annual Goldman Sachs Global Healthcare Conference on Thursday, June 10 at 10:30 a.m. ET.

A live audio webcast of the presentation will be available [here](#) and on Arvinas' website at [www.arvinas.com](http://www.arvinas.com). A replay of the webcast will be archived on Arvinas' website for 30 days following the presentation.

### About Arvinas

Arvinas is a clinical-stage biopharmaceutical company dedicated to improving the lives of patients suffering from debilitating and life-threatening diseases through the discovery, development, and commercialization of therapies that degrade disease-causing proteins. Arvinas uses its proprietary PROTAC<sup>®</sup> Discovery Engine platform to engineer proteolysis targeting chimeras, or PROTAC<sup>®</sup> targeted protein degraders, that are designed to harness the body's own natural protein disposal system to selectively and efficiently degrade and remove disease-causing proteins. In addition to its robust preclinical pipeline of PROTAC<sup>®</sup> protein degraders against validated and "undruggable" targets, the company has two clinical-stage programs: ARV-110 for the treatment of men with metastatic castrate-resistant prostate cancer; and ARV-471 for the treatment of patients with locally advanced or metastatic ER+/HER2- breast cancer.
