Arvinas to Present at Goldman Sachs 43rd Annual Global Healthcare Conference

June 2, 2022

NEW HAVEN, Conn., June 02, 2022 (GLOBE NEWSWIRE) -- Arvinas, Inc. (Nasdaq: ARVN), a clinical-stage biotechnology company creating a new class of drugs based on targeted protein degradation, today announced that management will participate in a fireside chat at the Goldman Sachs 43rd Annual Global Healthcare Conference on Monday, June 13 at 4:20 p.m. ET / 1:20 p.m. PT in Rancho Palos Verdes, Calif.

A live audio webcast of the presentation will be available here and on the Events + Presentations section of the Company's website.

About Arvinas
Arvinas is a clinical-stage biotechnology company dedicated to improving the lives of patients suffering from debilitating and life-threatening diseases through the discovery, development, and commercialization of therapies that degrade disease-causing proteins. Arvinas uses its proprietary PROTAC® Discovery Engine platform to engineer proteolysis targeting chimeras, or PROTAC® targeted protein degraders, that are designed to harness the body's own natural protein disposal system to selectively and efficiently degrade and remove disease-causing proteins. In addition to its robust preclinical pipeline of PROTAC® protein degraders against validated and "undruggable" targets, the company has three investigational clinical-stage programs: bavdegalutamide and ARV-766 for the treatment of men with metastatic castration-resistant prostate cancer; and ARV-471 for the treatment of patients with locally advanced or metastatic ER+/HER2- breast cancer.
