

Arvinas to Participate in Upcoming Investor Conferences

February 27, 2023

NEW HAVEN, Conn., Feb. 27, 2023 (GLOBE NEWSWIRE) -- Arvinas, Inc. (Nasdaq: ARVN), a clinical-stage biotechnology company creating a new class of drugs based on targeted protein degradation, today announced that management will participate in two upcoming investor conferences:

- **Cowen 43rd Annual Health Care Conference** on Monday, March 6. Ron Peck, M.D., Chief Medical Officer, and Randy Teel, Ph.D., Senior Vice President, Corporate and Business Development, will participate in a fireside chat. A live audio webcast of the presentation will be available [here](#) and on the Events + Presentations section of the Company's website.
- **Oppenheimer 33rd Annual Healthcare Conference** on Monday, March 13. Ron Peck, M.D., Chief Medical Officer, and Randy Teel, Ph.D., Senior Vice President, Corporate and Business Development, will participate in a fireside chat. A live audio webcast of the presentation will be available [here](#) and on the Events + Presentations section of the Company's website.

About Arvinas

Arvinas is a clinical-stage biotechnology company dedicated to improving the lives of patients suffering from debilitating and life-threatening diseases through the discovery, development, and commercialization of therapies that degrade disease-causing proteins. Arvinas uses its proprietary PROTAC® Discovery Engine platform to engineer proteolysis targeting chimeras, or PROTAC® targeted protein degraders, that are designed to harness the body's own natural protein disposal system to selectively and efficiently degrade and remove disease-causing proteins. In addition to its robust preclinical pipeline of PROTAC® protein degraders against validated and "undruggable" targets, the company has three investigational clinical-stage programs: bavdegalutamide (ARV-110) and ARV-766 for the treatment of men with metastatic castration-resistant prostate cancer; and ARV-471 for the treatment of patients with locally advanced or metastatic ER+/HER2- breast cancer.
