

Arvinas to Present at the Bank of America Securities 2023 Healthcare Conference

May 3, 2023

NEW HAVEN, Conn., May 03, 2023 (GLOBE NEWSWIRE) -- Arvinas, Inc. (Nasdaq: ARVN), a clinical-stage biotechnology company creating a new class of drugs based on targeted protein degradation, today announced that Sean Cassidy, Chief Financial Officer, and Randy Teel, Ph.D., Senior Vice President, Corporate and Business Development, will participate in a fireside chat at the Bank of America Securities 2023 Healthcare Conference on Tuesday, May 9 at 6:40 p.m. ET/3:40 p.m. PT in Las Vegas.

A live audio webcast of the presentation will be available [here](#) and under "Events and Presentations" of the Investors and Media section of the Company's website.

About Arvinas

Arvinas is a clinical-stage biotechnology company dedicated to improving the lives of patients suffering from debilitating and life-threatening diseases through the discovery, development, and commercialization of therapies that degrade disease-causing proteins. Arvinas uses its proprietary PROTAC® Discovery Engine platform to engineer proteolysis targeting chimeras, or PROTAC® targeted protein degraders, that are designed to harness the body's own natural protein disposal system to selectively and efficiently degrade and remove disease-causing proteins. In addition to its robust preclinical pipeline of PROTAC® protein degraders against validated and "undruggable" targets, the company has three investigational clinical-stage programs: bavdegalutamide (ARV-110) and ARV-766 for the treatment of men with metastatic castration-resistant prostate cancer; and vepdegestrant (ARV-471) for the treatment of patients with early and locally advanced or metastatic ER positive/human epidermal growth factor receptor 2 (HER2) negative (ER+/HER2-) breast cancer.
